- INCLUDE Project (2024–present) – With SNV, funded by the Embassy of the Kingdom of the Netherlands.
- Farmer Market Linkages (2012–present) – Connecting farmers to institutional and individual buyers.

## About Us

Founded in 2010, CHAIN is a Ugandan organisation dedicated to transforming farming communities by addressing food and health insecurity, improving social welfare, and promoting sustainable livelihoods.

We work with smallholder farmers to transition from subsistence to commercial agriculture through farmer group formation, training, and market linkages.

CHAIN promotes access to quality agricultural inputs, modern technologies, nutrition education, and inclusive financial services, while championing environmental stewardship and gender equality.

Our goal is to build resilient rural economies that improve the quality of life for present and future generations.
